Q14. How do the golgi bodies and lysosomes work together?

Q15. What is the function of smooth and rough endoplasmic reticulum?

Q16. How does the cell make golgi apparatus and endoplasmic reticulum?

Q17. What is the structure and function of a lysosome?

Q18. How do lysosomes and vesicles assist each other by working together?

Q19. Do plant cells have lysosomes?

Q20. What is endocytosis?

Q21. What happens if a cell does not produce the enzymes that lysosomes need in order to function?

Q22. What is the role of the endoplasmic reticulum as a site of protein folding?
